

# Nyanda State High School

## SCHOOL OVERVIEW

Nyanda SHS offers a vibrant, well balanced curriculum. The school is situated on native Australian bushland, featuring an environmental boardwalk, and a creek. The campus also features modern facilities across all subject areas, with a strong focus on academic achievement, traineeships and apprenticeships through the development of community and industry links. New programs in music industry studies, information and business technology as well as the traditional subjects provide for individual pathways. Students have easy access to rail and bus transportation to the CBD and the coast.

**Year Established** 1998

**Number of Students** 530

**School Size** 10 hectares
